PROJECTS

Weather App

React Native App / 2023

Real-time weather app with searches for any city and current location. This application was developed with React Native, which allows it to work on both Android and iOS, in addition to using various libraries such as Luxon, intl, location, among others:
<https://play.google.com/store/apps/details?id=com.lan891.weatherapp>

Presentation Card

React Web / 2022

Web page where we create a personalized cover letter linked with a QR code to access the contact's social networks, made with CSS Grid and ReactJS:
<https://lann892.github.io/jessica-profile/>

TinDog

Web / 2022

Web page where different sections and functions such as carousel are shown, designed with CSS:
<https://github.com/Lann892/TinDog-Start-master>
